

## Congregational Asset-Mapping Inventory Checklist

*Wondering what an easy and effective action step might be for your congregation in the current environment of fear and hostility?*

We'd like to suggest you take a moment to identify all the assets – human, physical, and financial – that your congregation might offer to grassroots groups organizing at this moment. This basic step brings several benefits. It will enable you to:

- More quickly respond to requests from other religious and non-profit groups when immediate action is needed;
- Be pro-active in enabling essential organizing to occur by providing, for example, much-needed meeting space; and
- Build the long-run strength of local non-profits led by people who are especially at risk, groups which may have fewer access to resources.

Your congregation or fellowship may already have some of this information collected. Check with your Administrator, Membership or Volunteer Coordinator, Social Justice lead, etc.

**Depending on where your congregation is located, WE RECOMMEND that you encourage other houses of worship at least in in your neighborhood if not town/city, to also conduct their own inventory.** You might suggest this at a meeting of a local ecumenical or interfaith group. The point is to share the information with each other, and with key local partner groups. This helps build a rapid response web, and saves a tremendous amount of time trying to identify help when help is needed.

*The template on the next page can be used for individual congregations and for a consolidated list of resources from collaborating houses of worship. Feel free to add more rows with more skills and assets, as needed.*

Skills, resources, and physical spaces which can be made available to non-profit groups:

Type of Asset	Congregation(s) where this is available	Notes and contact details
<b>CONGREGATIONAL RESOURCES</b>		
Free meeting space		
Sound equipment		
Copy machines
